Awesome App! 4.5 out of 5 stars by @SABADINHO

Apple ignores mac-os and windows. They make the whole system a computer database but it's hard to find things on mac and PC user for years and would love to go back and forth. Cinch helps a lot but it's not perfect. I love to use it to move windows. I love to use it to move windows. I love to use it to move windows. I love to use it to move windows.

Made an excellent decision before buying. 4.5 out of 5 stars by @SABADINHO

Lovely little app with hours of a windows like window snapping feature. I thought for the \$4.99 a tag I would get that experience. I was wrong. What I really want is a very simple app that can move windows around from both my Windows 7 and Mac because I'm using both but this is a great start.

Works perfect, just what I needed. 4.5 out of 5 stars by Michael Thompson

This is a nice app to get things done. It's a simple app that does what it's supposed to do. It's a simple app that does what it's supposed to do. It's a simple app that does what it's supposed to do. It's a simple app that does what it's supposed to do.

Awesome App ★★★★★
 by @B4RD0N4D0B0N

Apple's "productive" motto is an oxymoron. They're the whole system of a computer that doesn't let you do anything a mouse and keyboard user can't do. I've used it for years and would love to go back and forth with other OSes. I've found it to be a great tool to use to manage windows. I love the features that make it easy to use. I love the way it looks. I love the way it works. I love the way it feels. I love the way it works. I love the way it feels. I love the way it works. I love the way it feels.

Make an excellent window manager ★★★★★
 by @_SFP0419

Lovely little app with tonnes of windows. The window snapping feature (though not for the 50-60% size) would get the windows to snap to the left or right edge. It's a very simple app but it's very powerful. I love the way it works. I love the way it feels. I love the way it works. I love the way it feels.

Works perfect, just what I needed ★★★★★
 by Michael D'Amico

This little app is a real step up from other window management tools. This app is perfect. It gives me just what I need to be able to manage my windows. I love the way it works. I love the way it feels. I love the way it works. I love the way it feels.
